Notes

3 = sum of column 1 and 2

2 represents movements in original budget to get to final adjustments budget (including shifting of funds)

Virements must offset each other so that Virements in Total Expenditure equals zero

6 = sum of column 3, 4 and 5

8 does not necessarily equal the difference between 9 and 8 because over-spending is not the only reason for unauthorised expenditure

9 = 7 - 6

10 = (7/8)*100

11 = (9/1)*100

14 = 13 - 12

15 In revenue equals Audited Outcome plus funds actually recovered

16 In expenditure equals Audited Outcome less funds actually recovered

15 is Cash Flow equals Audited Outcome plus funds recovered

Explanations of the differences above 10% between the actual amounts and budgeted amounts are disclosed in annexures A(1) and A(2) to the annual financial statements.

ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

1. BASIS OF ACCOUNTING

1.1 BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, but some components are measured at fair value as indicated in subsequent accounting policy notes.

The financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practices (GRAP) prescribed by the Minister of Finance in terms of:

- *Government Notice 991 of 2005, issued in Government Gazette no. 28095 of 15 December 2005;*
- *Government Notice 992 of 2005, issued in Government Gazette no. 28095 of 15 December 2005; and*
- *Government Notice 516 of 2008, issued in Government Gazette no. 31021 of 9 May 2008;*
- *Government Notice 80 of 2011, issued in Government Gazette no. 33991 of 2 February 2011;*
- *Government Notice 314 of 2012, issued in Government Gazette no. 35258 of 20 April 2012;*
- *Government Notice 551 of 2014, issued in Government Gazette no. 37820 of 10 July 2014.*

The effective standards comprise of the following:

GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors
GRAP 4	The Effects of Changes in Foreign Exchange Rates
GRAP 5	Borrowing Costs
GRAP 6	Consolidated and Separate Financial Statements
GRAP 7	Investments in Associates
GRAP 8	Interests in Joint Ventures
GRAP 9	Revenue from Exchange Transactions
GRAP 10	Financial Reporting in Hyperinflationary Economies

1. BASIS OF ACCOUNTING *(continued)*

1.1 BASIS OF PRESENTATION *(continued)*

The effective standards comprise of the following *(continued)*:

GRAP 31	Intangible Assets (replaced GRAP 102)
GRAP 100	Non-current Assets Held for Sale and Discontinued Operations
GRAP 103	Heritage Assets
GRAP 104	Financial Instruments

Effective accrual based IPSASs considering the provisions in paragraphs 16 to 19 of Directive 5 applicable to Waterberg District Municipality comprise the following:

IPSAS 20	Related Party Disclosures
----------	---------------------------

Accounting policies for material transactions, events or conditions not covered by the above GRAP Standards have been developed in accordance with section 29 of ASB Directive 5 and paragraph 12 of GRAP 3.

The principal accounting policies adopted in the preparation of these annual financial statements are set out below.

The accounting policies applied are consistent with those used in the previous financial year, unless explicitly stated.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.2 STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective, but may be considered for early adoption or formulating an accounting policy:

GRAP 18	Segment Reporting
GRAP 20	Related party disclosures
GRAP 105	Transfer of functions between entities under common control
GRAP 106	Transfer of functions between entities not under common control
GRAP 107	Mergers

The impact of GRAP standards issued but not yet effective on the financial statements of Waterberg District Municipality in the future are as follows:

GRAP 18 - This does not deal with the accounting treatment of any particular transaction of events but merely with the re-arrangement of information already presented and disclosed. The impact on the municipality's financial statements would be minimal.

GRAP 20 – Related parties are currently disclosed in terms of IPSAS20, but records of all potential new related parties are also kept for implementation of GRAP20. The impact on the municipality's financial statements would be minimal.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

BASIS OF ACCOUNTING *(continued)*

1.2 STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE *(continued)*

GRAP 105–The Standard will have no material impact on the financial statements of the municipality as the municipality does not have functions transferred between entities under common control.

GRAP 106 –The Standard will have no material impact on the financial statements of the municipality as the municipality does not have functions transferred between entities under common control.

GRAP 107 –The Standard will have no material impact on the financial statements of the municipality as the municipality has no mergers.

The municipality shall apply these Standards of GRAP for annual financial statements covering periods beginning on or after a date to be determined by the Minister of Finance in a regulation to be published in accordance with section 91(1) (b) of the Public Finance Management Act, Act No. 1 of 1999, as amended.

1.3 PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.4 GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.5 COMPARATIVE INFORMATION

Current year comparatives (budget): Budget information in accordance with GRAP24 has been provided as separate statements after the cash flow statement and form part of the annual financial statements.

Prior year comparatives: When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.6 SIGNIFICANT JUDGEMENTS AND ESTIMATES

The use of judgement, estimates and assumptions is inherent to the process of preparing annual financial statements. These judgements, estimates and assumptions affect the amounts presented in the annual financial statements. Uncertainties about these estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the relevant assets or liability in future periods.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

BASIS OF ACCOUNTING *(continued)*

1.6 SIGNIFICANT JUDGEMENTS AND ESTIMATES *(continued)*

Estimates are informed by historical experience, information currently available to managements, assumptions, and other factors that are believed to be reasonable under the circumstances. These estimates are reviewed on a regular basis. Changes in estimates are processed in the period of the review and applied prospectively. The significant estimates used in the process of applying the municipality's accounting policies are listed in note 41 to the annual financial statements.

2 PROPERTY, PLANT AND EQUIPMENT

2.1 Initial recognition

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used for more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

2.1 Initial recognition *(continued)*

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, the deemed cost is the carrying amount of the asset(s) given up. The municipality has no assets of cultural, environmental or historical significance and therefore no heritage assets.

2.2 Subsequent measurement – cost model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment. Land, heritage assets and artwork are not depreciated as it is deemed to have an indefinite useful life.

Subsequent expenditure is capitalised when it increases the capacity of future economic benefits associated with the asset.

Where the municipality replaces parts of an asset, it derecognizes the part of the asset being replaced and capitalizes the new component. Subsequent expenditure incurred on an asset is capitalized when it increases the capacity or future economic benefits associated with the asset.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

2 PROPERTY, PLANT AND EQUIPMENT *(continued)*

2.3 Depreciation and impairment

Depreciation is calculated on cost minus the residual value, using the straight-line method, over the estimated useful lives of the assets. The annual depreciation rates are based on the following estimated asset lives:

	<u>Useful life range in years</u>
Buildings and Facilities	10 to 60
Computer Equipment	4 to 10
Emergency Equipment	5 to 10
Furniture and Fittings	5 to 37
Office Equipment	4 to 36
Plant and Equipment	5 to 25
Motor Vehicles	3 to 15
Specialized vehicles	5 to 16

Assets have been tested for impairment and the municipality has also accounted for impairment of assets in terms of GRAP21 and GRAP26 for cash-generating and non-cash-generating assets. Residual values and useful lives are reviewed annually.

3.4 Derecognition

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value/residual value and is recognised in the Statement of Financial Performance.

4 INTANGIBLE ASSETS

4.1 Initial recognition

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licenses, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalized. Research expenditure is never capitalized, while development expenditure is only capitalized to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential.

WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015

4 INTANGIBLE ASSETS (continued)

4.1 Initial recognition (continued)

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset of monetary assets or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, the deemed cost is the carrying amount of the asset(s) given up.

4.2 Subsequent measurement – cost model

Intangible assets are subsequently carried at cost less accumulated amortisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is infinite, the asset is not amortised but is subject to an annual impairment test.

4.3 Amortization

Amortisation is charged so as to write off the cost or valuation minus residual value of intangible assets over their estimated useful lives using the straight line method. The annual amortisation rates are based on the following estimated average asset lives:

	<u>Useful life range in years</u>
Computer software	4 to 40 years depending on the individual review of each asset's useful life

The residual values, amortization period and the amortization method for intangible assets with a finite useful life are reviewed at each reporting date and any changes are recognized as a change in accounting estimate in the Statement of Financial Performance.

The municipality test intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done annually. Where the carrying amount of an item of intangible assets is greater than the estimated recoverable amount (or recoverable service amount), it is written down to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

4.4 Derecognition

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value/residual value and is recognised in the Statement of Financial Performance.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

5 IMPAIRMENT OF ASSETS

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also tests assets with an indefinite useful life or assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

6 NON-CURRENT ASSETS HELD FOR SALE

6.1 Initial recognition

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

6.2 Subsequent measurement

Non-current assets held for sale (or disposal group) are measured at the lower of carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

7 INVENTORY

7.1 Initial recognition

Inventories comprise current assets held for consumption during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. The cost of inventories is assigned by using the first-in, first-out (FIFO) cost formula.

7.2 Subsequent measurement

Inventories, consisting of consumables are valued at the lower of cost and net realisable value. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

8 FINANCIAL INSTRUMENTS

8.1 Initial recognition

Financial instruments are initially recognized at fair value.

WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015

8 FINANCIAL INSTRUMENTS *(continued)*

8.2 Subsequent measurement

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to maturity, loans and receivables, or available for sale. Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on this categorisation and is in accordance with GRAP104.

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that the municipality has the positive intention and ability to hold to maturity. The investments are disclosed as Held-to-maturity investments which are subsequently measured at amortised cost.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets.

Amortised cost is calculated using the effective interest method.

8.3 Investments

Investments, which include fixed deposits and short-term deposits invested in registered commercial banks, are categorised as either held-to-maturity where the criteria for that categorisation are met, or as loans and receivables, and are measured at amortised cost. Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. Impairments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows flowing from the instrument. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

8.4 Trade and other receivables

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current. The carrying amount of trade and other receivables is a reasonable approximation of fair value.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

8 FINANCIAL INSTRUMENTS *(continued)*

8.5 Trade and payables

Financial liabilities consist of trade and other payables. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest. Amounts that are payable within 12 months from the reporting date are classified as current. The carrying amount of trade and other payables is a reasonable approximation of fair value.

8.6 Cash and cash equivalents

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

The credit risk disclosure is not required for financial instruments whose carrying amount best represents the maximum exposure to credit risk.

9 PROVISIONS

Provisions are recognised when the municipality has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

10 LEASES

10.1 Municipality as lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

10.1 Municipality as lessee (continued)

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease. The average payments over the period of the lease are expensed and any difference between the average and actual payment is disclosed as a debtor or creditor in the Statement of Financial Position.

Contingent rentals are not straight-lined or included in the projected future minimum operating lease expenses / receipts in the note to the financial statements.

10.2 Municipality as lessor

Under a finance lease, the municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease installments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

11 REVENUE

11.1 Revenue from exchange transactions

Revenue from exchange transactions is recognized at fair value and refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Interest is recognised on a time proportion basis, using the effective interest method.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

11 REVENUE (*continued*)

11.1 Revenue from exchange transactions (*continued*)

Revenue arising from the application of the approved tariff charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods are passed to the consumer.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

11.2 Revenue from non-exchange transactions

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the municipality.

Where public contributions have been received but the municipality has not met the related conditions, a deferred income (liability) is recognised.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipality. Contributed property, plant and equipment are recognized at fair value.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councilors or officials is virtually certain.

11.3 Grants, transfers and donations

GRAP 23 applies to revenue from grants and donations received.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met, to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Grants without any conditions attached are recognised as revenue when the asset is recognised.

**WATERBERG DISTRICT MUNICIPALITY
ACCOUNTING POLICIES OF THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR
ENDED 30 JUNE 2015**

11 REVENUE (*continued*)

11.3 Grants, transfers and donations (*continued*)

Unutilized conditional grants are reflected in the Statement of Financial Position as a current liability and are always cash backed.

12 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

13 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorized expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

14 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

15 RECOVERY OF UNAUTHORISED, IRREGULAR, FRUITLESS AND WASTEFUL EXPENDITURE

The recovery of unauthorized, irregular, fruitless and wasteful expenditure is based on legislated procedures, and is recognized when the recovery thereof from the responsible officials is probable. The recovery of unauthorized, irregular, fruitless and wasteful expenditure is treated as other income.

16 EMPLOYEE BENEFITS

16.1 Provision for employee benefits

Provision is made in the financial statements for all employee benefits.

Liabilities for wages and salaries, including non-monetary benefits, bonuses and annual leave obliged to be settled within 12 months of the reporting date, are recognized in other payables or provision for employee benefits in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognized when the leave is taken and measured at the rates paid or payable.

The liability for long service leave for which settlement can be deferred beyond 12 months from the reporting date is recognized in the non-current liability for employee benefits and measured as the present value of expected future payment to be made in respect of services provided by employees up to the reporting date. Consideration is given to the expected future wage and salary levels, experience of employee departures and period of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms of maturity and currency that match, as closely as possible, the estimated future cash outflows.

16.2 Pensions and other post-retirement benefits

The municipality provides retirement benefits for its employees and councilors. The municipality has accounted for the defined contribution plan in compliance with GRAP25 Employee Benefits. A defined contribution plan is a pension plan under which the municipality pays fixed contributions into a separate entity.

For defined contribution plans, the municipality pays contributions on a mandatory, contractual or voluntary basis. The municipality has no further payment obligations once the contributions have been paid. Accordingly, the Municipality recognises the contributions to the scheme as an expense when the employees and councilors have rendered the employment service or served office entitling them to the contributions.

The municipality also provides post-retirement medical benefits to qualifying retirees. They are recognized in accordance with GRAP25 on defined benefit plans.

The cost of providing health care is charged to the income statement so as to recognize current and past service costs, interest cost on defined benefit obligations, and the effect of any curtailments of settlements, net of expected returns on plan assets. Actuarial gains and losses are recognized in full directly in the statement of financial performance. Additional benefits are expensed as past service cost in the period in which the benefit is granted to the extent that it is not covered by a surplus to contributions funded by the municipality. The municipality has no plan assets. A liability is consequently recognized in the statement of financial position based on the present value of defined benefit obligations, less any unrecognized past service costs.

17 VAT

The municipality accounts for Value Added Tax on the payments basis.

18 POST-REPORTING DATE EVENTS

Events after the reporting date are those events, both favorable and unfavorable, that occur between the reporting date and the date when the financial statements are authorized for issue.

Two types of events can be identified:

- Those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- Those that is indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amounts recognized in the financial statements to reflect adjusting events after the reporting date once the event occurred. The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

19 RELATED PARTIES

The municipality has processes and controls in place to aid in the identification of related parties. A related party is a person or an entity with the ability to control or jointly control the other party or exercise significant influence over the party, or vice versa, or an entity that is subject to common control, or joint control. Related party relationships where control exists are disclosed regardless of whether any transactions took place between the parties during the reporting period.

Where transactions occurred between the municipality and any one of more of its related parties, and those transactions are not within:

- Normal supplier and / or client / recipient relationships on terms and conditions no more or less favorable than those which it is reasonable to expect the municipality to have adopted if deadline with the individual entity / person in the same circumstances; and
- The terms and conditions are within the normal operating parameters established by the municipality's legal mandate;

Further details about those transactions are disclosed in the notes to the financial statements.

20 BUDGETS

The budget is prepared and presented on an accrual basis using a classification based on the nature of expenses in the statements of financial performance. The budget and accounting basis is therefore comparable. The approved budget in these financial statements covers the fiscal period from 1 July 2014 to 30 June 2015.

Budget information in accordance with GRAP24 has been provided as separate statements after the cash flow statement and form part of the annual financial statements. Variances of more than 10% between budgeted and actual amounts have been explained in Appendix A (1) and A (2) which form part of the annual financial statements.

	165 476	582 871

Performance bonuses are paid one year in arrears when the municipality has a present obligation as a result of a past event which is the services rendered and it is probable that an outflow of economic resources will be required to settle the obligation and a reliable estimate of the amount can be made. The bonus has been calculated based on the assessment of eligible employees at the reporting date.

The movement is reconciled as follows:

Balance at beginning of year	582 871	325 595
Contributions/(reversals) to provision	18 326	257 276
Expenditure incurred	(435,721)	-
Balance at year end	165 476	582 871

The assumptions and basis of calculation was done in terms of the requirements of the Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Municipal Manager, 2006. Provision for Performance bonuses are calculated as per the performance agreements & brackets indicated in Section 32(2) of the above Performance Regulations. The maximum exposure was calculated based on the final score of each individual manager at year end and in which bracket those scores fall.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

16 RETIREMENT HEALTH CARE LIABILITY

The municipality contributes to a number of defined contribution schemes for pension of all permanent employees and councillors. The funds are governed by the Pension Funds Act of 1956.

The following are defined contributions plans:

- National Fund for Municipal Workers
- Municipal Gratuity Fund
- Municipal Employee Fund
- Joint Municipal Pension Fund
- Municipal Councillors Pension Fund

The municipality also provides certain post-retirement medical benefits to qualifying pensioners. All post-retirement medical benefits are unfunded.

The following are defined benefit plans:

- LA Health
- SAMWU Med
- Bonitas Medical Fund
- Key Health Medical Scheme
- Hosmed

In accordance with prevailing legislation, the defined benefit funds are actuarially valued at intervals of not more than two years. The Projected Unit Credit valuation method is used. The latest actuarial valuation was performed as at 30 June 2015.

The municipality has no legal obligation to settle this liability with any immediate contributions or additional once-off contributions. The municipality intends to continue to contribute to each defined benefit post-retirement medical scheme in accordance with the latest recommendations of the actuary to each scheme.

The accumulated defined benefit obligation in respect of the post-retirement medical contributions are provided, based on calculations of independent actuaries, using methods and assumptions consistent with GRAP 25 as follows:

There are no other related party transactions or balances for the current year. Waterberg Economic Development Agency is currently dormant.

40 EVENTS AFTER THE REPORTING DATE

There are no material events that occurred after the reporting date.

41 KEY SOURCES OF ESTIMATION UNCERTAINTY AND JUDGEMENTS

The following areas involve a significant degree of estimation uncertainty:

Useful lives and residual values of property, plant and equipment
Useful lives and residual values of intangible assets
Recoverable amounts of property, plant and equipment
Recoverable amounts of intangible assets
Impairment of assets
Present value of defined benefit obligations for medical aid
Present value of defined benefit obligations for long-service awards

The useful lives, residual values, impairment and recoverable amounts of property, plant and equipment and intangible assets are based on existing knowledge, utilisation and conditions of the assets and would not differ materially unless a significant change occurs in its condition or the market value of similar assets.

The present value of defined benefit obligations are measured at fair value based on recently observed market prices for which their fair values might change materially within the next financial year but these changes would not arise from assumptions or other sources of estimation uncertainty at the reporting date since assumption are based on current staff establishment and the requirements of the Collective Agreement which is not subject to change in the near future.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

42 RISK MANAGEMENT

The main risks of the Municipality are interest rate risk, liquidity risk, credit risk and the fair value of financial instruments.

42.1 Cash flow interest rate risk

The municipality's interest rate risk arises from investments. Investments at variable rates expose the municipality to cash flow interest rate risk. Investments at fixed rates expose the municipality to fair value interest rate risk. The municipal policy is to not invest more than 35% of funds with one institution and to invest at different maturity dates over the short term to alleviate major fluctuations in the interest rates. The majority of investments are fixed rate investments.

	2015 R	2014 R
At year-end, financial instruments exposed to interest rate risk were as follows:		
- Current bank account	3,684,004	5,208,774
- Call deposits	21,057,151	5,058,226
- 60 days fixed deposits	10,032,836	10,030,453
- 90 days fixed deposits	48,279,891	42,133,439
- 6 month fixed deposits	31,176,088	28,080,662
	<u>114 229 970</u>	<u>90 511 554</u>

42.2 Currency risk

The Municipality does not have currency risk as in terms of section 163 of the Municipal Finance Management Act, No.56 of 2003, no municipality may incur a liability or risk payable in a foreign currency.

42.3 Liquidity risk

The Municipality's risk to liquidity is a result of the funds available to cover future commitments. The Municipality's strong credit profile and diversified funding sources ensure that sufficient liquid funds are maintained to meet its daily cash requirements. The Municipality's policy on counterpart credit exposures ensures that only counterparties of a high credit standing are used for the investments of any excess cash.

The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities. Cash flow forecasts are prepared.

The table below analyses the municipality's financial liabilities into relevant maturity groupings based on the remaining period at year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

42 RISK MANAGEMENT (*continued*)

42.4 Credit risk

Credit risk consists mainly of cash deposits, cash equivalents and trade debtors.

To manage the risk the Municipality has a credit control policy. As part of these processes the financial viability of all counterparties is regularly monitored and assessed.

Counterparties:

The Municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counterparty. The Municipality has no significant concentration of credit risk with any single counterparty or a group of counterparties.

These are the carrying amounts that best represent the maximum exposure to credit risk:

Cash and cash equivalents	83 059 082	62 436 092
Trade and other receivables from exchange transactions	14 919	7 371
Held-to-maturity investments	31 176 088	28 080 662

42.5 Fair value of financial instruments

At year end the carrying amounts of cash and short-term deposits, trade and other receivables and trade and other payables approximated their fair values due to the short-term maturities of these assets and liabilities.

43 RESTATEMENT OF COMPARATIVE INFORMATION

There has been restatements on comparative figures as disclosed in note 32 on prior period errors.

44 COMPARISON WITH THE BUDGET

The comparison of the Municipality's actual financial performance with that budgeted is set out in Tables A(1) to A(7). The difference between the Adjusted Budget and final budget relates to virements approved by the Municipal Manager and savings declared on completed projects. Variances of more than 10% between budgeted and actual amounts have been explained in Appendix A (1) and A (2) which form part of the annual financial statements.
